

# **AI Optical Module Company**

## AI Optical Module Company

According to the company, the Silicon photonics Co-packaged Advanced Light Engine (SCALE) solution is the industry's first Optical Compute Interconnect Multi-Source Agreement (OCI ...

The number of venture-backed optical component startups has exploded - the Optical Component Start-Up Tracker identifies these companies and their value propositions.

GlobalFoundries (GFS) unveils its SCALE™ optical module, setting a new benchmark for co-packaged optics and bandwidth density in advanced AI data centers. The new platform meets ...

GlobalFoundries accelerates adoption of co-packaged optics for advanced AI data centers with SCALE optical module solution

GlobalFoundries accelerates adoption of co-packaged optics for advanced AI data centers with SCALE optical module solution

GlobalFoundries introduced its SCALE optical module solution, a co-packaged optics platform designed to address interconnect bottlenecks in AI data centers.

GlobalFoundries (GF) announced the introduction of its SCALE™ optical module solution for co-packaged optics (CPO). GF's Silicon photonics Co-packaged Advanced Light Engine (SCALE) ...

Explore the evolving AI Optical Chips market as we profile ten industry top players shaping innovation, efficiency, and competitive dynamics. Readers will discover the unique positions and strengths of ...

GlobalFoundries has introduced its SCALE optical module solution for co-packaged optics, designed to support high-bandwidth AI data centre interconnects.

This approach enables scalable, cost-efficient production of advanced optical modules for next-generation co-packaged optics, AI systems, and high-bandwidth data center applications.
