

# Accepting telecommunications tower installation work

## Overview

Utilize our expert tower contractor services for high-quality radio tower construction, installation, and maintenance. The majority of our VIKOR's tower construction services offer comprehensive solutions for wireless providers, public utilities, wind energy developers, oil and gas companies, and government agencies. With extensive experience in the wireless, 5G small cell, MET, and transportation tower construction sectors, we provide professional tower installation services that are the critical foundation upon which reliable telecommunications networks are built. We employ innovative techniques to structurally reinforce towers and their foundations to support additional loading, while also offering expert assessments of tower. As the industry leader in turn-key wireless cell tower construction and maintenance, BHI has you covered.
