

Air switch with relay protection

Overview

Press these switches with your foot for convenient, hands-free operation. They use air pressure to turn circuits on or off, keeping live electrical circuits away from work areas. Use the three-prong outlet to plug a.

Air switch with relay protection

Air switches are an efficient, durable, and safe solution for controlling electrical devices in both every day and specialised applications. Use of air pressure to activate circuits makes them ...

The SureSwitch™ Relay is an electronic upgrade for mechanical AC/Heat Pump compressor contactors that upgrades and protects your AC or Heat Pump investment. 1. Pest Protection: Totally sealed to ...

Often called definite-purpose contactors, these relays meet UL 508 for use with air conditioning and heating. Mount them directly to 35 mm DIN rail (also known as DIN 3 rail) for fast installation. They ...

Air relay switches are used where pneumatic logic is required e.g. in extremely hazardous areas. The output is an air supply (or an absence of it), in place of an electrical signal as in pressure switches.

Choose from our selection of air-actuated hand switches, air-actuated relays, air-actuated foot switches, and more. Same and Next Day Delivery.

The rPP20 is capable of switching loads up to 20A via a latching relay designed with robust inrush protection from the harsh switching requirements of fluorescent and LED loads.

These relays are suitable for switching DC loads and are available with an optional magnetic blowout for arc suppression, enabling switching of even higher current DC circuits.

Buy air relays online for industrial and commercial use. Fast shipping, competitive prices, and top-quality pneumatic control devices.

The Mite Series of pneumatic relays offer precise control of air or gas service. Their snap-acting design automatically trips on either an increasing or decreasing signal.

A fast and selective arc fault mitigation for air-insulated LV & MV switchgear and Relion protection and control relays and sensor technology protect staff and plant facilities for many years.

Price and other details may vary based on product size and color. Need help?
