

Belgium exports 100G active optical cable

Belgium exports 100G active optical cable

Compliant with QSFP28 MSA standards, these active optical cables offer a low-cost solution for data centers and high-performance computing, and can be seamlessly integrated with ...

This cable offers versatile and adaptable deployment options, supporting a capacity of 100G. It can be smoothly connected to a wide range of devices within your network.

Our In-house coding for multi-vendor solutions, allows you to connect from one vendor's switch to another vendor's switch or NIC/server. Available vendors can be chosen from the relevant drop-down ...

The unique, quality, active, fiber, cable solutions provide power-efficient connectivity for data center interconnects. They enable higher port bandwidth, density and configurability at a low cost and ...

Multichannel AOCs combine our vertically integrated VCSEL array technology with standard QSFP and SFP+ connectors. They feature low power consumption, low weight, and a small bend radius for ...

Explore our 100Gb/s parallel active optical cable (AOC) for 100 meters, featuring 4 channels. Designed for harsh conditions, ensuring reliable data exchange.

This product line includes 100GbE and InfiniBand; SFP28 for applications up to 25 to 28 Gb/s. Each cable solution leverages 10Gtek's fiber optic technology for the transmission of data while reducing ...

The C-LIGHT 100G AOC Active Optical Cable, built on the QSFP28 form factor and 850nm VCSEL laser technology, delivers outstanding performance in power consumption, interference immunity, ...

Amphenol's 100G QSFP28 optical modules include SR4, AOC, AOC break out, CWDM4, LR4, ER4 Lite, ER4 and ZR4 series, which adopt LC or MPO optical ports

These 100G QSFP28 assemblies are capable of transmitting data up to 100Gb/s, offering an easy installation with a flexible, multimode fiber cable.

Multichannel AOCs combine our vertically integrated VCSEL array technology ...
