

Bridge Structure Design in Democratic Congo

Overview

The Brazzaville–Kinshasa Bridge is a proposed road-rail bridge construction project over the Congo River. It would connect the Republic of the Congo with the Democratic Republic of the Congo at their respective capitals, Brazzaville and Kinshasa. I look forward to hearing from you. The Shange Bridge (24ml) is part of the Integrated Project for Agricultural Growth in the Great Lakes Region (PICAGL), which aims to increase agricultural. In order to build a viable and competitive sub-regional market, Central African States, working together within the Economic Community of Central African States (ECCAS), decided to pool their efforts with respect to both their economic potential and their human resources. We conducted an interview. KTH, School of Architecture and the Built Environment (ABE), Civil and Architectural Engineering, Structural Design and Bridges.
