

Cable trays and metal cable channels

Cable trays and metal cable channels

PW Stainless Steel cable tray provides the heavy duty support required for large power cables. See more [View Details Favorite](#)

Channel cable trays are fully enclosed and they can protect cables from heat, dust and water. Electro galvanized, hot-dipped galvanized surface makes channel cable trays resist corrosion, rust and ...

T& B channel tray systems are fabricated from a corrosion-resistant metal (low-carbon steel, stainless steel or an aluminum alloy) or from a metal with a corrosion-resistant finish (zinc or epoxy).

Eaton's submittal builder tool for B-Line series cable ladder and tray allows you to easily filter, select and download straight section, fitting and accessory submittals.

As a less-expensive alternative to conduit, a stronger alternative than wire basket, and superior to generic tray, Snap Track saves on labor and reduces total installed costs.

Channel cable tray secures cables using Eagle Basket pre-punched holes. New pre-punched holes allow the secure attachment of cables to the inside of the channel without the need to drill holes, ...

The FiberRunner® 6x4 Channel can be used with fittings and brackets to design a routing system to segregate, route, and protect fiber optic and high-performance copper cables. The cable routing ...

Eaton's B-Line series offers one of the widest ranges of cable management solutions available in the market today, including products such as metallic and non-metallic/fiberglass cable tray, cable ...

Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable, highest quality, cost effective and innovative cable trays systems available.

At Shielden, we provide ladder cable trays, perforated trays, wire mesh trays, solid bottom trays, and channel trays to meet various installation requirements. Whether you need a heavy-duty industrial ...
