

## Cambodia FOB Server Rating IP68

### Overview

The IP68 rating, part of the IEC 60529 standard, defines a device's protection against dust and water ingress. The "6" indicates complete dust resistance, while the "8" certifies prolonged submersion in water beyond 1 meter. It is essential that you are aware of your terms of trade prior to shipment. The Buyer. Ex WORKS (EXW) means that the seller delivers the goods to the buyer when it places the goods at the disposal of the buyer at a named place (like a factory or warehouse), and that named place may or may not be the seller's premises. For delivery to occur, the seller does not need to load the goods. Cambodia adopted a Customs Law in June 2007 to bring it into conformity with the terms of General Agreement on Tariffs and Trade (GATT/WTO) Codes on Customs Valuation. While the need for waterproofing is obvious in consumer products like smartphones and outdoor equipment, it's equally critical, though. IP67 / IP68 Waterproof Enclosures Phnom Penh, Cambodia Contractor, Repair Services | EKG (CAMBODIA) CO.
