

Compatible Low-Loss AI Server Supplier in Malta

Overview

We stock tower and rack servers for file sharing, virtualization, web hosting and data storage. Choose between entry-level systems for small offices and more powerful models. Massive Memory Boost: With a 64% increase in memory capacity, you can tackle enormous AI models and datasets that were previously impossible. Eliminated Data Bottlenecks: Doubled network bandwidth (up to 800 Gb/s) means your powerful GPUs are never waiting for data, unlocking their full potential. Malta's foremost AI engineering company — chatbots, machine learning, automation & data intelligence under one roof. Neural AI is Malta's leading artificial intelligence development company, combining deep technical engineering with applied AI strategy. Before delivering a solution, we consider your needs in terms of power, performance, scalability, reliability, and flexibility. Enterprises are investing billions of dollars in cloud. Logicom established a sales office in Malta in 2005 to better serve the needs of the Maltese IT market.
