

Custom Laser Diode 200G

Custom Laser Diode 200G

Focused laser beam through optical instruments will increase the chance of eye hazard. This LD shall change its forward voltage requirement and optical output power according to temperature change. ...

RPMC Lasers: Huge selection of Standard & Custom Solid-State Lasers, Diodes & Modules, designed for a variety of markets and applications.

This offers the benefit of providing a diverse and customisable ...

With more than 200 off-the-shelf models available, we are happy to design custom laser module based on your specific requirements. Many of our standard models can be tailored for different ...

Built-in revolutionary green laser diode in the ML-200G makes the output power of its green laser steady. The operating temperature range of the ML-200G is from -4 degrees Fahrenheit (-20 degrees ...

Get Quotations on your custom Laser Diode requirement from multiple manufacturers via GoPhotonics. Enter your requirements, details and upload any supporting files.

Custom Services available are: wavelength sorting, consulting, R& D, design work, & manufacturing of your product. NVG, Inc., also offers other major manufacturers' laser diodes i.e., Samsung, Hitachi, ...

CEO's diode engineers are highly experienced in custom designs for specialized pumping and direct diode applications. We can match your specifications to our standard products or design the ...

This offers the benefit of providing a diverse and customisable range of laser diode solutions. We use bare laser diode chips sourced from multiple chip manufacturers, allowing for fast and efficient ...

We offer custom fabrications, producing laser diode chips across wavelengths from 500 nm to 1650 nm, available in both FB and DFB configurations to meet precise customer specifications. Our solutions ...

Filter the laser diode list by wavelength, output power, and package type to meet your specific requirements. Contact us for more information about our laser diodes and services, including laser ...
