

Customized Aviation Wire and Optical Cable Equipment

Customized Aviation Wire and Optical Cable Equipment

Our connectors, backshells, cable assemblies, wire protection, contacts and non-explosive actuators are designed to operate in harsh environments ranging from deep sea to deep space. Qualified to ...

Use our secure online Configurator to design assemblies to your exact defense specs. Customize cable types, shields, and terminations—then download a ready-to-quote drawing with full pricing ...

Reliable cables and assemblies custom designed for the aerospace and defense industries. Engineered for mission critical applications in the most demanding environments, such as extreme temperatures, ...

Major Custom Cable designs aerospace cable assemblies, fiber optic cables, and custom aerospace wiring built for mission-critical performance. Engineered for speed, reliability, and precision—when ...

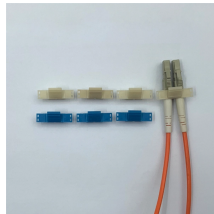

Our aviation and aerospace customers develop innovative, ground-breaking systems, and trust us to deliver accurate and bespoke cabling solutions that do not compromise on performance or quality.

Whether you need wire harnessing for individual avionics equipment or across your complete system, our engineers, technicians and support staff work with you to develop a custom solution that meets ...

We specialized in the design, engineering, and manufacturing of custom wire harnesses, cable assemblies, and integrated electronic mechanical devices (box builds).

Wiringo builds custom cable assemblies with careful engineering and full customization. We back it up with over 15 years of experience and key quality certifications across the aerospace ...

Built from rope-lay-construction copper or aluminum wire and jacketed with Glenair signature Duralectric insulation, TurboFlex cables are optimized for use in an ecosystem of Glenair signature connector, ...

PIC Wire & Cable products are engineered to perform under pressure in harsh aerospace environments and manufactured with extensive quality control measures to ensure consistent performance.
