

Data Center Power Distribution Box Company

Overview

Providing complete power distribution solutions from Incoming Gear to the Server Rack. This also includes UPS, STS, PDU and RPP customized to your application. Our Unique Design Eliminates Splices, Reduces Installation Time and Improves Safety. Introducing Rakworx's versatile Data Center Server Cabinet Portfolio, ranging from 24U to 52U in height and 600mm to 750mm in width, with depths from 1070mm to 1200mm. Our cabinets have meshed doors and a robust six-brace design for superior load-bearing capacity. Delta's Power Distribution Units (PDUs) are space-saving, easy to move, offering superior power protection, monitoring, and scalability while reducing initial investment. ABB Drives is a global technology leader serving industries, infrastructure and machine builders with world-class drives, drive systems and packages. We help our customers, partners and equipment manufacturers to improve energy efficiency, asset reliability, productivity, safety and performance. With a 90-year history in electrical infrastructure, our modular and scalable Starline Track Busway is the gold standard for flexible and adaptable power distribution.

Data Center Power Distribution Box Company

Server Technology produces the highest quality Data Center rackmount power distribution units (PDUs) and monitoring solutions.

From power supply to rack and back: Danfoss'' power distribution units can handle all demands regarding your data center''s electrical power system. We can help you design and install power ...
