

## Disinfection Room for Distribution Boxes

## Disinfection Room for Distribution Boxes

Clean Supply Room: A room used only for storage and holding as part of a system for distribution of clean supplies. Does not require a work counter or a hand-washing station.

Terra's stainless steel ISO 5 WIP storage rack is ideal for storage of semiconductor wafer boxes. The clean, secure design protects work-in-progress (WIP) materials from breakage and contamination ...

The nonhomogeneous room temperatures may cause discomfort for operators and, more importantly, may lead to uncontrolled air currents in the cleanroom, increasing the risk of product contamination.

Containers that are contaminated should be removed based upon the cleanliness requirements of the storage area. Many suppliers have paper or cardboard distribution boxes that ...
