

SMB AI-Systems & High-Speed Interconnect

Egypt AI Server 400G

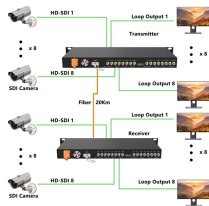

Egypt AI Server 400G

A comprehensive guide to upgrading your AI data center infrastructure from 400G to 800G networking — covering technical specifications, business ROI, phased migration strategy, ...

Shop high-speed AI servers at 15% off with blade, rack or tower design, redundant hot-plug power supplies for ML, VDI & blockchain workloads, instant quotes & 24/7 expert support.

Unleash the potential of your data center with the PowerEdge XE9640 AI rack server. Experience unmatched performance and efficiency for AI-driven tasks.

AI servers accelerate model training and real-time inference, delivering powerful computing with CPUs, GPUs, and specialized AI accelerators. Their scalable and efficient architecture enables businesses ...

Each block comprises a group of GPU servers and 400G switches (such as 16 DGX H100 systems with 8 CX732Q-N switches). Rail-aligned, non-oversubscribed block design ensures ...

C-LIGHT 400G/800G DAC & AEC solutions deliver ultra-low latency, power-efficient, and cost-effective connectivity for AI clusters, HPC systems, and cloud data centers, supporting ...

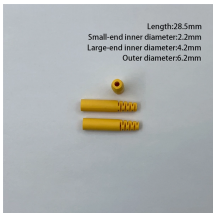

Following the strategic partnership between Corning and NVIDIA, AI-driven optical connectivity demand is exploding globally. Datacenters are accelerating the upgrade to 400G / 800G optical modules ...

AMD EPYC™ 7003 4U dual-socket GPU server featuring eight dual-slot GPUs, dual NVMe, dual M.2, OCP 3.0, four 3000 W Titanium power supplies and ASUS ASMB10-iKVM.

Leverage a combination of GPUs, CPUs, software, and services for AI tasks of any scale on-prem, cloud, or colocation data centers. Protect your personal, enterprise and public data. Secure your IT ...

IT Valley is proud to work as a provider of Supermicro servers in Egypt, delivering advanced server technologies and AI infrastructure solutions to businesses across the country.
