

Estonia ranks first in industrial switchboards

Overview

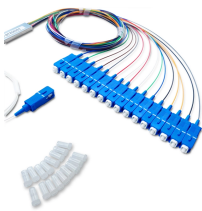

Tuum has once again secured a spot in Estonia's TopTech ranking, landing at #17 among the country's most valuable tech companies. This consistent recognition reflects both the strength of our innovation journey and the growing impact of Estonian tech on the global stage. Performance is below the average of the Strong Innovators (111.3%) 4, with colour codes indicating performance levels. China enters the top 10 for the first time, while middle-income economies – India, Türkiye, Viet Nam, the Philippines, Indonesia, Morocco, Albania and Iran – are the fastest climbers since 2013. Switzerland tops the Global Innovation Index. Founded in 2012, our company brings together experienced professionals from the electrical industry, offering a flexible and customer-focused approach. We offer complete. Production of low voltage compositions. Industrial automation programming and design. Market Forecast By Type (Low-Voltage, Middle-Voltage, High-Voltage), By End-users (Industrial, Residential, Commercial, Other) And Competitive Landscape Do you also provide customisation in the market study?

Yes, we provide customisation as per your requirements.
