

Estonia s large-span bridge

Overview

The bridge is planned to be opened at the beginning of summer, on June 21, 2025. Currently, the longest-span bridges in Estonia are the Rannu-Jõesuu and Ihaste bridges, both with a maximum span of 90 meters. The bridge connects the Rääma district with the city center and, together with the construction of adjoining streets, cost nearly €40 million. A new bridge with Estonia's longest span was completed in two. The Exmet Group is thrilled to announce its integral role in a significant infrastructure project - the Pärnu Bridge, which will stand as the longest bridge in Estonia, spanning approximately 270 meters. Today, Friday 23 August, Inf Infra have announced that the bridge has reached its. The Pärnu city government has initiated a design tender to completely reconstruct its deteriorating Kesklinna bridge, seeking proposals for both a modern fixed structure and one that revives its original, rarely used opening mechanism for ship traffic. Stricto Project OU is the author of architectural concept and technical design.
