

## Explosion-proof distribution box configuration list

Optical splitter cassette type refers to the port 2.0 mm / 3.0mm slip-on fiber multichannel direct output with a plastic box packaging protection and easy to use.

Optical splitter rack mount type is using metal box packaging which can be installed in 19" frame or cabinet.

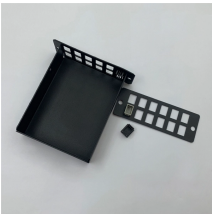

Optical splitter LGX box type is ready by flame retardant material box or plate packaging. Mainly suitable for cable points fiber box and wall mounted terminal box.

Optical splitter mini type refers to the port 0.9 mm slip-on fiber multichannel direct output with a compact design and easy to use.

## Explosion-proof distribution box configuration list

	<p>All components and technical parameters need to comply with the national standard GB7251 design requirements, sample production needs to be notified to the construction unit, supervision, ...</p>
	<p>Unlike standard distribution boxes that could become shrapnel shards in volatile environments, explosion-proof containers are engineered fortresses that absorb, contain, and vent catastrophic ...</p>
	<p>·Equipped with specialized hinge structure, which can prevent the flameproof joints from damage when opening and closing the box, and greatly prolong the service life of box. The boxes can be combined ...</p>
	<p>Durable Hexlon Explosion Proof Distribution Boxes and Electrical Enclosures, IECEx and ATEX certified for Zone 1 and Zone 2.</p>
	<p>Type 7 and 10 enclosures are designed to contain an internal explosion without causing an external hazard. Type 8 enclosures are designed to prevent combustion through the use of oil-immersed ...</p>

	<p>Explosion-proof distribution boxes are designed to safely control and distribute electrical power in hazardous environments, preventing ignition risks.</p>
	<p>To meet diverse installation requirements, a variety of enclosure dimensions, terminals, and cable gland options are available. The modular design allows for tailored configurations that align with specific ...</p>
	<p>Product features: The explosion-proof control cabinet (box) can install various instruments inside. Low-voltage electrical appliances, frequency converters, PLCs, soft starters, and computer systems can ...</p>
	<p>When designing power distribution panels for lighting systems, heat tracing, or overall machinery, there is more than one option to choose from. If installing in a Class I, II Division 2 or Zone 1 for USA or ...</p>
	<p>Customizable configuration of operators, cable entry quantities and cable gland types as per specification. The enclosure series EJB forms the optimal basis for the application-specific ...</p>
