

## Fiber Tail Finished Products

### Overview

Greene Tweed offers a wide variety of high-performance fiber optic cable, patch cord, and pigtail assemblies to fit any customer application. FS fiber optic pigtails offer a fast way to make fiber optic communication devices in the field by fiber splicing, fully manufactured and tested by industrial standards. The Relevance Inspector will open in the Coveo Administration Console. Available in a range of multimode and single-mode fibers with SC, ST or LC connectors. All OCC pigtail assemblies may be ordered pre-terminated in any OCC rack or wall mount cabinet or custom. The Fiber Optic Pigtail is normally a tight buffered fiber cable with a connector pre-terminated on one end and exposed fiber on the other. The stripped, or pre-terminated end, is intended to be connected to the terminated end of a single mode or multimode fiber through a fusion or mechanical. Pre-terminated / connectorized fiber optic cable assemblies by AFL.

## Fiber Tail Finished Products

No fiber network is complete without the proper hardware, and having the right pigtailed is only one step. Make sure to browse our selections of fiber rack mounts and adapter panels to safeguard and ...

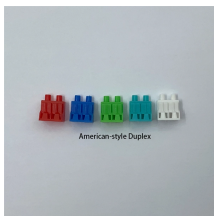

Pre-terminated Cable Assemblies - AFL fiber optic cable assemblies include connectorized, pigtailed, jumpers, simplex, duplex, high fiber count, node cables and MPO assemblies.
