

Free quote for 800G optical module with 25G optical output

Free quote for 800G optical module with 25G optical output

These compact modules convert electrical signals into optical signals—and vice versa—supporting various data rates like 10G, 25G, 40G, 100G, 200G, 400G, and 800G.

Discover seamless 400G/800G optical transceivers, DAC/AOC cables, NVIDIA hardware & switches for AI data centers.

Submit your specs through our Request a Quote form, or email info@fibrecross with your project details. We'll review your requirements and respond with a tailored proposal within 24 hours.

Leading SFP supplier offering high-performance optical modules and network solutions. Make Better Compatible - providing the most compatible, high-quality optical modules at the best prices.

Source premium optical transceivers (1G to 800G) direct from our Wuhan factories. 100% brand compatible, OEM custom options, and rigorous quality testing.

Our sales manager will contact you soon. High-density 800G OSFP and QSFP-DD transceivers support InfiniBand and RoCE, enabling 100m to 2km transmission via MMF and SMF.

The 800G optical transceivers are ideal for data centers, enterprises, and telecom networks. Click to get your transceiver modules from nearby warehouses. 30-Day Free Return.

Complete guide to 800G optical module costs and TCO optimization for AI data centers. Includes pricing analysis, cost comparison, vendor strategies, and ROI calculations for informed ...

200G/400G/800G optical module features up to 40km transmission distances using QSFP56/QSFP-DD footprints for data center interconnect applications - FiberMall

200G 400G 800G Transceivers are the latest generation of optical modules that enable high-speed data transmission over fiber optic cables - AscentOptics.
