

High-density intelligent cold aisle manufacturers for IDC data centers

Overview

Altimir Data Center Solutions designs, fabricates, and installs high quality, custom engineered Hot Aisle and Cold Aisle containment systems for data centers worldwide. This creates a highly efficient "chimney effect". Armstrong aisle containment combines flexible design, strategic sourcing, and American manufacturing to deliver solutions that ensure long-term performance in a rapidly evolving digital world. In August 2024, Worthington Armstrong Venture, a joint venture between Armstrong World Industries and Worthington. Data center teams can often struggle with managing hot spots, wasted cooling, pressure imbalances, and tricky retrofits, all while balancing tight containment with easy access and safety.

High-density intelligent cold aisle manufacturers for IDC data center

Altimir Data Center Solutions designs, fabricates, and installs high quality, custom engineered Hot Aisle and Cold Aisle containment systems for data centers worldwide.

We manufacture fully customized racks designed to support cold aisle solutions that align with your airflow requirements and energy efficiency goals. With NexGen's precision manufacturing, you'll have ...

TRAX hot aisle / cold aisle data center curtains are the industry leading low cost containment solutions. Increase cooling efficiency while measurably lowering energy costs with data center containment ...

Our aisle containment solutions are designed with durable materials and components to support long-term performance. We prioritize sourcing premium-grade materials to deliver containment systems ...

Enconnex offers comprehensive hot and cold aisle containment solutions tailored to your unique environment. Engineered for deployment in the world's most demanding data centers.

We ensure that you have the foundation your data center needs to be the best. By listening carefully to your requirements, we assist you in choosing the right solutions that meet your goals.

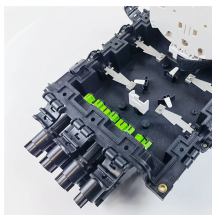

Depending on your facility's layout, Armstrong Aisle Containment Solutions offer both Hot Aisle Containment (HAC) and Cold Aisle Containment (CAC) systems to suit new builds or retrofit ...

Upside AisleLok containment solutions and portfolio of aisle airflow management products are designed to improve cooling effectiveness and efficiency by enhancing airflow management. Separates supply ...

Armstrong Aisle Containment systems help data centers improve airflow efficiency, thermal performance, and scalability without locking facilities into rigid layouts. Designed to adapt as ...

Ideal for high-density environments, our CAC solutions "cap" the cold aisle. This ensures that every CFM (Cubic Feet per Minute) of chilled air is delivered directly to the server intakes rather than escaping ...
