

## High-precision Romanian optical backplane connectors

These dense and highly engineered interfaces have been utilized successfully for decades to enable scalable capacity systems for applications in core routing, optical switching and telecommunications.

Our portfolio of backplane connectors features high-performance right angle, co-planar, and mezzanine interconnects, used for mating printed circuit boards together. TE engineers use sophisticated 3D ...

Whether the priority is a proven cost-optimized solution or the best performing backplane connector on the market, Amphenol is your source for reliable high-speed and high-density connectors.

Delivering signal speeds up to 112Gbps, the Impulse Backplane Connector System provides a flexible, scalable and modular solution with cable, conventional and orthogonal board-to-board connectivity ...

Mouser is an authorized distributor for leading backplane connector manufacturers such as Amphenol, HARTING, ITT Cannon, Molex, Samtec, TE Connectivity & more. Please view our large selection of ...
