

How much does a network server rack cost at the factory

Overview

In the US, a fully equipped rack can cost anywhere between \$15,000 and \$50,000 or more, depending on your requirements. This includes multiple servers, which may cost \$1,000 to \$5,000 each, along with storage systems and networking equipment like switches and routers. The cost of a server rack in the US can vary widely depending on its size, build quality, and features. Entry-level racks, such as small wall-mounted units, typically range from \$200 to \$500. The main cost drivers include cabinet height (in rack units), construction (steel, powder coating), security features, and any power distribution or cable management accessories. Assumptions: region, specs, labor hours. Cost ranges reflect typical small, medium, and enterprise setups and.
