

## Huawei Core Switch 18 Ports

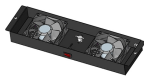

### Overview

With up to 18 slot line card capacity, the S8700 series can mix 10/25GbE access with 100/400GbE fabric uplinks—making it future-ready for next-gen data center fabrics. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. CloudEngine S12700H series switches are Huawei's next-generation modular core/aggregation switches designed for high-end campus networks in the all-wireless era of Wi-Fi 6/7. CloudEngine S12700H series switches come in two models, which offer four and eight LPU slots, respectively. By default, multi-GE ports support 100 Mbit/s and 1000 Mbit/s.

## Huawei Core Switch 18 Ports

Next generation of high-performance, high-density Ethernet switches, offering flexible port combinations and expansion capabilities from GE to 400GE, enabling rapid service evolution for enterprises.

Huawei CloudEngine series switches are high-performance cloud switches designed for next-generation data centers and high-end campus networks.

The electrical and optical ports of a combo port are multiplexed, and only one of them can work at a time. When one of the Ethernet ports is working, the other port is shut down.

With up to 18 slot line card capacity, the S8700 series can mix 10/25GbE access with 100/400GbE fabric uplinks—making it future-ready for next-gen data center fabrics.

The Huawei core switch is built to handle high-density data traffic with advanced switching capabilities and modular scalability. It supports modern network demands through high-speed connectivity and ...

The switch is a PoE switch and supports two power module slots, each of which can have a 1000 W PoE or 600 W PoE power module installed. Pluggable AC and DC PoE power modules can be used ...

Huawei campus switches are ideal for building future-proof campus networks with simplified management, high reliability, and service intelligence, across industries such as enterprises, ...

Realize wired and wireless convergence from access to core, manage up to 10,240 APs with a single switch, and achieve simplified O& M with unified user authentication.

Thunder link offers various models of Huawei Ethernet switches and network switches, including the S5720, S6720, S6730, CE6800 and CE12800, designed for data centers and campus networks. ...

CloudEngine S12700H series switches are Huawei's next-generation modular core/aggregation switches designed for high-end campus networks in the all-wireless era of Wi-Fi 6/7. CloudEngine S12700H ...
