

Intelligent Solution for Integrated Wiring Boxes and Cabinets in Bosnia and Herzegovina

Overview

Specializing in project management for MEP systems and KNX smart automation, we deliver tailored solutions that prioritize energy efficiency, enhance the experience in luxury buildings, and ensure complete client satisfaction. Our good engineering team for HW / SW design can create complete design of the project documentation, procurement and production of equipment, organization of FAT procedures, installations of equipment and SAT procedures during project realization and at the end, as-built documentation. As a certified KNX Partner, we help design and set up smart home and building systems that let your lights, heating. We produce switching blocks for a voltage of 0.4 kV with a rated current of up to 3200 A. Our cabinets use cases and equipment of reputable suppliers. We install SIEMENS and SCHNEIDER switches. as a small company with 4 employees, for production of electrical cabinets. 600 m² We see ourselves as a partner of the machine manufacturing industry in DACH and Scandinavian. We manufacture all sorts of power distribution cabinets, from simple house switch electrical

cabinets to low voltage switchgear blocks and DC distributions in transformer substation, all for industrial, constructional and distributional needs.
