Distributor box with flexible suspension for space-saving power distribution. [View products now!](#)

Discover Italian electrical boxes with IP55 waterproof rating, 16A capacity, and Italian standard outlets. Ideal for outdoor & residential use.

Designed and manufactured in Italy, the Euro2000 range of Distribution Boxes offer quality and reliability across the entire range. Suited for a wide variety of applications in the electrical engineering industry.

It receives power from a main source - either the public power grid or a generator. It then directs electricity to various circuits, ensuring proper load management and protection.

It is especially suitable for isolating lines in HVDC transmission and distribution systems, such as cutting off the high voltage direct current between solar panels and inverters.
