

# **Jordan QSFP28 optical module 200G**

## Jordan QSFP28 optical module 200G

Our 2 x 100G modules use Duplex CS connectors, boasting a 40 percent size reduction from Duplex LC. They also allow for two duplexes (four fibers) in a single QSFP28-DD module, effectively doubling the ...

PHILISUN QSFP56 and high-density QSFP28-DD modules ensure seamless 200Gbps connectivity, supporting both short-reach and long-haul applications.

Mechanical Diagram Compatible with the QSFP28-DD Type 2 Specification for pluggable form factor modules.

Explore our 200G QSFP28-DD transceiver modules designed for high-speed data transmission at 2x100Gbps. These compact QSFP28-DD modules support applications such as 2x100G QSFP28 ...

Designed for LAN-WDM 8-wavelength singlemode optical fiber system, it is an eight channels full duplex transceiver, each lane data rate up to 25Gbps, and the highest data rate of the transceiver up to ...

It is compliant with QSFP28 and QSFP-DD MSA specifications. It provides connectivity between system units with a 200Gb/s QSFP-DD connector on one side and two separate 100Gb/s QSFP28 ...

The transceiver can be used to offer 200G point-to-point interconnections. They also can be used for high port building practices in 100G switches/routers, thus doubling the port density by using the two ...

Learn how QSFP56 200G optical transceivers improve data center performance. Compare QSFP28, QSFP56-DD, and explore LINK-PP's solutions for scalable, high-speed networks.

Browse optical transceivers from Pivotal Optics including SFP, SFP28, QSFP28 & QSFP-DD modules. 1G to 400G solutions for data centers & networks. Shop now!

WolonFiber manufactures strictly MSA-compliant 100G QSFP28 and 200G QSFP56, QSFP-DD, and heavy-duty CFP2 optical interconnects optimized for ultra-dense Spine-Leaf topologies and long-haul ...
