

# Libyan Agent for Enterprise-Grade Optical Routers LPO

## Overview

Hatif Libya, a subsidiary of the Telecommunications Holding Company (LPTIC), selected selected Infinera to expand and develop Libya's optical transport network. Enterprise-grade network solutions, hardware systems, and IT services that keep your business connected, secure, and productive. Network is Libya's premier provider of IT infrastructure and network engineering services. The multi-million USD project will provide access to internet and mobile. An LPO (Linear Pluggable Optics) solution offers considerable power savings for optical interconnect by removing the digital signal processing (DSP) function from the pluggable optical module. The agreement was signed during a ceremony attended by Libyan Prime Minister. The California-based firm's entrance marks milestone in US investment in the Libyan market.
