

# **Lithuanian FOB Coherent Optical Module 200G**

## Lithuanian FOB Coherent Optical Module 200G

The 10 0G / 20 0G coherent optical module uses a 10 4 - pin CFP2 -MSA electrical connector for connecting the host card gure 1-1shows the picture of this module.The optical module consists of ...

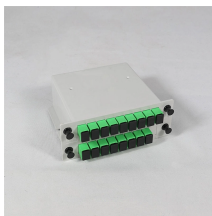

Convert two channels of 100G signal into one channel of 200G ...

The 200G CFP2 module allows transmission with the Mux/Demux and EDFA in ...

The products are used in optical fiber backbone communication, optical fiber access, optical fiber sensing, cable TV, industry, scientific research, medical treatment and related fields.

Develop, Manufacture and Support the Most Comprehensive Portfolio of Optical Transceivers.

This CFP2 coherent optical module supports wavelengths from 1528 to 1567 nm and has a transmission capacity of up to 200 Gbps. With EDFA for ...

The 200G CFP2 module allows transmission with the Mux/Demux and EDFA in point-to-point topology up to a distance of 80 km, providing greater scale and higher transfer rates for DCI.

On the host side, the module can accommodate a variety of signal types including 100GE, 200GE, 400GE, OTU4 and OTUCn (FlexO). On the line side the module supports 100G, 200G, 300G, and ...

Convert two channels of 100G signal into one channel of 200G coherent DWDM optical signal (200G CFP2-DCO). The CFP2-DCO coherent transceivers are capable of supporting flex-grid ...

The 100g / 200g / 400g coherent optical module launched by xianyitong technology adopts imported chips with stable performance. The packaging forms include CFP and cfp2.

The module complies with Directive 2002/95/EC on the restriction on the use of certain hazardous substances in electrical and electronic equipment and with exception 6a, 6c, 7b and 13a permitted by ...

Giga-bit Ethernet (100GbE) and Optical Transport channel Unit-4 (OUT4). Max. Performance figures, data and any illustrative material provided in this data sheet are typical and must be specifically ...

GIGALIGHT provides 100G, 200G, and 400G pluggable digital coherent optical transceiver modules (DCO) for data center interconnection (DCI), 5G backhaul, metro telecommunication, and other long ...
