## New Zealand Fireproof and Flame-Retardant Cable Tray Manufacturing

Boost your electrical needs with our Fire Rated Cable Trays that are tested for fire resistance under real-world conditions. Designed to perform even with cables installed and connected.

Steel & Tube offer a full range of cable trays and cable ladders suitable for all cable containment, and additionally can provide full take-offs from plans through to a complete quotation.

With one of the largest ranges of fire-tested systems in New Zealand, we provide compliant, practical solutions for real-world construction - not theoretical designs or engineered guesswork. From ...

In order to achieve the required fire resistance ratings, James Hardie New Zealand Ltd has developed various fire rated systems starting from 30 minute fire rating up to 120 minute fire rating and these ...

FS specializes in Class Approved passive fire protection of electrical cables by way of cable coating. Our applications can be completed on live cables with no disruption to your operations.

Our solutions are designed to prevent flame propagation and enable speedy fire-fighting operations. Our cable fire protection solutions ensure that cables remain functional even in case of fire, enabling ...

We construct and supply both solid and ventilated trays with pre-assembled fittings with pre-drilled straight sections. This allows faster installation and uninterrupted ...

The ALSECURE® range is already available and can already contribute to changing the level of safety in your projects. Anticipate the future adopting the new ...

All cable tray and cable ladder cantilever assemblies are available in hot dip galvanised. The ET3 cable tray assembly is also available in pre-galvanised steel, for a long corrosion resistant life, with a clean ...

Our extensive range of Fire Rated Cable Support Systems has been developed in-house utilising our industry experience. All of our products comply with AS/NZS 3013:2005, WS5X 2 hour fire rating to ...

ENVIROLEX® is an extensive range of Low Fire Hazard flame retardant cables engineered for enhanced performance under fire conditions. These low-smoke, zero-halogen cables have a hard ...

All our Fire Resistant cables are also available in a NON-FIRE RESISTANT construction with NO FIRE RESISTANCE properties (no Mica glass tape for fire barrier). These are still LS0H, flame/fire ...
