

Optical Module Dual-Mode Transceiver

Optical Module Dual-Mode Transceiver

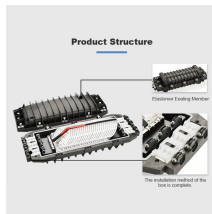

The Cisco QSFP-100G-SR-S Module is a pluggable optical transceiver with a duplex LC connector interface supporting link lengths of 70 and 100 meters on laser-optimized OM3 and ...

Delivering blazing 10G speeds over multi-mode fiber, it extends your connections up to 300 meters—perfect for linking multi-building setups. Plug-and-play compatibility ensures hassle-free ...

GIGALIGHT 12G-SDI SFP+ is a series of dual-fiber bidirectional transceiver integrated optical modules designed for high-definition video signal optical transmission applications, supporting SD-SDI, HD ...

As a global supplier of high-quality magnetic and optical connectivity solutions, LINK-PP offers a wide range of transceiver modules that support both single and dual fiber, as well as multi ...

Supporting the OpenZR+ Multi-Source Agreement (MSA), the new 400G OpenZR+ QSFP-DD Optical Module from Molex provides a high level of performance and scalability for next-gen data centers ...

The 1.25G SFP transceiver module operates at a specific wavelength, typically around 1310nm, which is commonly used in fiber optic communications. And the 1.25G SFP transceiver module is for dual ...

In the world of fiber optic communications, optical transceiver modules play a pivotal role as interfaces that convert electrical signals to optical signals and vice versa. If you're dealing with ...

To accommodate an increasing spectrum of applications, Arista offers a wide choice of OSFP, QSFP-DD, QSFP, SFP, SFP-DD and DSFP transceivers and cables that comply with industry standards, ...

Transceiver modules can be expensive, especially those with sensitive high-speed optics. Fortinet delivers high-quality transceivers, while keeping cost to a minimum.

Shop DigiKey's large in-stock selection of Fiber Optic Transceiver Modules. View inventory, pricing and order now for same day shipping!
