

Rack-mounted single-mode beam splitter 1c

Rack-mounted single-mode beam splitter lc

The 1U rack enclosure, made of aluminum alloy and resistant to dust and heat, can effectively safeguard fibers while also being easy to install and maintain. A PLC splitter is based on PLC (Planar ...

PLC splitter is a single mode splitter with an even split ratio from one input fiber to ...

To meet diverse project needs, FiberMania offers PLC splitters in a variety of configurations, including ABS modules, bare fiber types, LGX modules, mini modules, and rack-mount versions. Each product ...

The 19-inch rack-mount PLC splitters are specifically designed for standard 19" racks, making them ideal for data centers or server rooms with high wiring density requirements. They feature low insertion ...

FS PLC Fiber Optic Splitters, Bare/Blockless/ABS/LGX Splitter/Rack Mount Types, support 1xN light distribution, with low IL and PDL for high-reliability transmission. Deploying compact FS PLC Splitters ...

PLC splitter is a single mode splitter with an even split ratio from one input fiber to multiple output fibers, which is ideal for EPON, GPON, FTTH, FTTX network.

This rack-mounted PLC splitter features a 1x32 configuration with SC/APC connectors or customized options, designed for reliable fiber optic signal distribution in various network applications.

Rack Mount PLC Fiber Splitter — 1x32 Single Mode SC/APC Ruggedized PLC (planar lightwave circuit) splitter 1x32 single mode SC/APC configuration Fits standard 19in. 1U rack space Silica optical ...

All rack mount PLC splitters are built with G657A1 single-mode fiber and support a wide wavelength range of 1260–1650 nm, ensuring compatibility with GPON, EPON, and 10G PON systems.

Zemecs FPRA2 and FPCA2 series 19" rackmount PLC splitters are manufactured using silica optical waveguide technology and can split up to 64 fibers through different connectors. The pigtailed are ...

Boost network performance with the CTS 2x32 Rack Mount Fiber Optic Splitter Panel. High-density single-mode LC/APC 1U design with low insertion loss.
