

## Rwanda connects optical fiber cable

### Overview

Plans are in place for a special program to assist those unable to afford the phones. The Ministry of Technology and Innovation announced the completion of 58 towers and 42 kilometers of fiber optic cables in Kirehe District to provide high-speed internet access. The program offers affordable. These guidelines on fiber optic cables underground installation aim at avoiding any damage to existing underground infrastructure such as existing FOC, sewage or water pipes, electrical cables or other telecommunications cables. They also intend to insure that the installation of FOC is done in. Do you have an idea for The New Times to cover?

Submit it here! Altech Stream Rwanda has announced that it has connected to the interim micro-wave internet technology of the International Submarine Optic Fibre Cable System. To learn more, feel free to contact us on [sales@6wresearch](mailto:sales@6wresearch). The training focuses on real field skills including fiber cable handling, preparation, splicing awareness, testing workflows, FTTx deployment concepts.
