

Specifications and Models of Fiber Optic Fusion Splice Trays

Specifications and Models of Fiber Optic Fusion Splice Trays

Discover CommScope fiber splice trays, fiber optic splice trays, and a convenient fiber splice organizer. Organize fiber connections with ease.

The NextSTEPTM Fiber Splice Tray and the NextSTEPTM Ribbon Fiber Splice Tray are innovative new splice trays that support fusion splicing applications for loose-tube, tight-buffered and ribbon fiber cables.

Made of high-quality ABS plastic, the tray is lightweight yet durable, ...

They are equipped with splice holders, compatible with all standard types of heat shrink or crimp type splice protectors, and provide enough space for storage and management of the excess fiber.

The trays are engineered for use with indoor or outdoor splice hardware with both loose tube and tight-buffered optical cable designs. The metal-tray series consists of a rugged aluminum base and cover ...

The cabinets feature secure, accessible splice trays stacked for easy access and management. The lightweight material of the cabinets makes them easier to install or mount, saving on installation time ...

Splice trays are designed to hold individual or mass fusion spliced fibers. These trays are typically installed within fiber optic enclosures and patch panels. They're compact, lightweight, and available ...

The 12-Fiber transparent fusion splice tray is ideal for fusion splicing single fiber. The see through cover and mylar insert enable easy viewing when visual fault locator (VFL) testing and verification is ...

Our fiber optic splice trays and boxes provide a secure and organized solution for managing fiber splices in various network environments. These enclosures protect delicate spliced fibers, ensuring long ...

The 144-Fiber transparent fusion splice tray is ideal for fusion splicing ribbon fiber. The see through cover and mylar insert enable easy viewing when visual fault locator (VFL) testing and verification is ...

Made of high-quality ABS plastic, the tray is lightweight yet durable, designed to withstand daily handling and long-term deployment. Designed with a controlled bend radius and organized ...
