

## Tools for stripping optical cable sheaths

## Tools for stripping optical cable sheaths

With preset factory settings and no adjustments required, this fiber optic stripper is designed to strip 250µm buffer coating to expose the 125µm optical fiber in fiber optic cables.

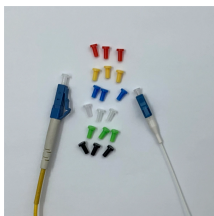

These fiber buffer stripping tools provide a quick, easy, and reliable way to remove the buffer from an optical fiber in preparation for connectorization. A fiber guide and matched blades ensure that the ...

**Durable Aluminum Alloy Construction:** This tool is manufactured from aluminum alloy to provide stability when cutting through tough cable sheaths. It is designed to handle diameters ...

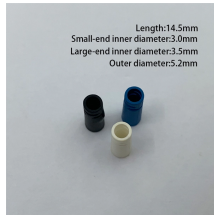

We offer cable slitting tools and accessories that cover all cable slitting and stripping needs! Fiber cable slitters and other specialized fiber optic equipment.

Jonard Tools manufactures a large range of fiber optic stripping tools specifically designed for technicians in the fiber optics industry. Jonard Tools is committed to manufacturing our products with ...

Jacket Stripping Tool is designed to strip the outer sheath from tight jacket Cables/Microcables. Minicable Sheath Stripper slits the minicable sheath in diametrically opposite locations to expose the ...

Our fiber optic stripping tools are meticulously designed for clean, consistent results without damaging delicate fibers. With reliable performance and rugged construction, you can tackle any project with ...

Learn how to use fiber strippers, cable cutting scissors, and armored cable slitters. Discover their applications in fiber splicing, cable prep, and FTTH.

Home Optical Fiber Cable Solutions Cable Tools & Accessories.

The JIC-4366 Cable Sheath Stripper from Jonard is used to ring-cut many types of tight buffer, loose tube buffer, breakout cables and other types of jacketed fiber cables. A slitting blade is built into the ...
