Please click the appropriate link below to view the catalog section as a PDF.

A full range of perforated cable tray products manufactured to the highest standards, offering time saving and adaptable designs, practical slot patterns and versatile accessories.

Organize network infrastructure with CommScope Horizontal and Vertical Cable Management Kits. Sturdy aluminum structures, troughs, spools, and trays keep cables secure and concealed.

Use this cable tray offset calculator to estimate sloped section length, required horizontal run, and installation feasibility for vertical, horizontal, and compound tray offsets.

Cable tray length is selected based on the load to be supported, the distance between the supports (also referred to as the span), and handling and installation constraints.

When fitting cable trays and their accessories, the products are cut on site to create changes of direction, adjust sections, etc. Damage can also occur during handling; as a result, both the ...
