

## Western European pigtail channel manufacturer

### Overview

PEC is a German manufacturing company that combines German engineering know-how in fixing applications with worldwide engineering and distribution service. PEC Europe has been taken over by the HILTI Group in autumn 2016. Explore Western's extensive range of flexible hoses, pigtails, and fittings designed specifically for the gas industry. Whether it's high-pressure gas cylinder filling, manifold systems, liquid cryogenic transfer, high-pressure tube trailers, or point-of-use distribution systems, Western has you. PFC profiles define Parallel Flange Channel profiles. Our European Standard Channel profiles are used in the construction area to create steel. onsemi has design centers, manufacturing facilities, sales offices and support locations in countries around the world. Locations in United States and Canada. Locations in Czech Republic, Germany, Ireland, Romania, Sweden, Slovakia, United Kingdom, Finland, Switzerland, Israel, Turkey, Poland. Our hot-rolled framing channels are now ETA certified and have been supplemented by the new toothed channel PEC-MZ-CE 29/20 with toothed bolts. Our specialists assemble high-voltage connectors and high-voltage cables.

## Western European pigtail channel manufacturer

Channels can be purchased through the global sales network of 38 sales offices in Europe, Asia, Africa and America, as well as 16 metal service centres in Ukraine, and authorised dealers.

onsemi has design, solution engineering (SEC), manufacturing, sales and support locations in countries around the world.

Attieh Group produces a variety of Channel sections such as Japanese Standard Channels, European Standard Channels, Parallel Flanges Channels and British Parallel Flange Channels.

We can produce high-voltage assemblies as a pigtail variant attached on one side or as a finished, double-sided version - also with different connector systems. In our high-voltage cable configurator, ...

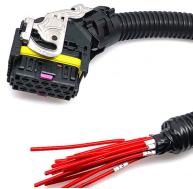

At our, European Strut & Support Manufacturer, production facility we cut the channels to your specific lengths and deburr the edges. We can bundle the cut-to-length Strut and label it for easy customer ...

The pigtails provide flexible connection inside passive equipments, patch panels, ODFs and closures. We offers diverse range of single fiber ferrule connectors which are manufactured with precision ...

Although our Parallel Flange Channel Profiles are used in many sectors, especially in construction, lightened section UPE-A and UPE-AA profiles are produced in high quality variety and low delivery time.

Our selection of automotive pigtails ensures that the job is done right and on time. From headlamp pigtails to switch and sensor pigtails, we carry a wide variety to handle a wide variety of applications.

With products available in various lengths, from a few inches to hundreds of feet, Western provides reliable solutions to efficiently move gas for a wide range of applications.
